

Our promise to your loved one.

Pine Tree Assisted Living is a CARES® Dementia Trained Facility. Here's what that means for your family.

Trained in dementia care.

Every direct caregiver completes the CARES® 5-Step Method, the same evidence-based training used by 300+ nursing facilities nationwide and recognized by CMS.

Person-centered, every shift.

Our staff are taught to slow down, connect at eye level, and respond with patience and empathy — especially during the moments your loved one needs it most.

Fewer behavioral incidents.

Facilities using CARES® have cut antipsychotic medication use by up to 100% (JAMDA, 2026). We aim to bring that same standard of care to your family member.

Have questions about your loved one's care?

Reach out to our Director of Nursing, Mary Rust, at mrust@pinetree.org or 612-555-0003. We're always happy to talk through what CARES® means in practice for your family.
